NUMBER 22
VOLUME FORTY-FOURTH YEAR

PERFIDY OF A PHILADELPHIA GRAND JURY

The audacity of the ring managers in Philadelphia must excite admiration and amazement in the breast of Patrick Lynch. When the robbers of New York were brought before the Courts, they found themselves at the end of their rascally career. They did not presume to trifle with Grand Juries. The Philadelphia ring masters have gone beyond the achievements of the unworthy Sachems of Tammany. They have their tools in the Grand Jury room as well. Men who equally before their oaths to the oaths they have taken on Tuesday one William Tattersall, an assistant commissioner of highways, and an humble servant of the ring was indicted by the Grand Jury for perjury, and illegal voting. The testimony produced before the magistrate was so conclusive of how an organization could lend aid to the ring, that we wished to see the case in Court. Tattersall may actually be guilty of the misdemeanor of voting out of his district, but the purpose of protecting a member of the ring, is proven by one who swore at his trial, the prosecution [illegible] *[illegible]*

What comment can be made upon this? Is it not a perfidious act? Is it not a crime against the laws? Is it not a crime against the peace? Is it not a crime against the rights of the people? Is it not a crime against the honor of the Commonwealth? Is it not a crime against the honor of the City of Philadelphia? Is it not a crime against the honor of the Grand Jury? Is it not a crime against the honor of the Court? Is it not a crime against the honor of the Bar? Is it not a crime against the honor of the Bench? Is it not a crime against the honor of the Judges? Is it not a crime against the honor of the Jury? Is it not a crime against the honor of the Witnesses? Is it not a crime against the honor of the Prisoner? Is it not a crime against the honor of the Prosecutor? Is it not a crime against the honor of the Defendant? Is it not a crime against the honor of the Plaintiff

FRIDAY, FEB. 23, 1872

THE revolutionists in Mexico are gaining ground, and Juarez is coming adrift.

ON Tuesday the citizens of Baltimore voted $375,000 additional to the West Maryland Railroad. The vote was very light—only 1,067 for to 14 against.

THE Chairman of the Radical State Central Committee in Indiana has resigned. He is charged with stealing from the party. He thinks if he had done the people the matter would have been different.

THE election in Crawford County, Delaware, of Montgomery to succeed Henry S. Evans, deceased, will be held on the 19th of March, the day of the Spring Elections.

CONGRESS is drier by little more than one month only for the next presidential election. They have already set a date for adjournment, only so far as concerns their members, to meet at the polls in order to attend at the Philadelphia Convention.

GEORGE A. SMITH, Esq., was elected on Tuesday week to fill the vacancy in the House of Representatives in the Philadelphia and Fulton district occasioned by the death of J. W. Dickerson. Mr. Smith was the Democratic nominee, and his election is a gain of one democratic majority and duality.

THE Philadelphia *Post* (extreme Radical) says:

"The movement in the Republican party against the renomination of Grant gains solidity and strength. The isolated utterances of his enemies are gradually coalescing into an army. Within six weeks there has been a decided change in public sentiment."

S. P. LOWES, a clerk in the Postoffice, died with a number of other persons who had turned up at *Cleveland* on the 11th of the month, *with a bullet* to the amount of $9,000. Sixty uncurrent bills were found on him. What a pity he was drawn *Cleveland* to the parts and dispersed *upon it*.

EXAMINERS. It seems that the report in favor of Mr. Meyer in the Cessna Mayer contested seat case has not yet been adopted by the members of the Committee on Elections.

CONGRESS gives up its dead. One would think he ought to rest since 1873.

BRIGHAM YOUNG pledges Mormondom to the Republican party in return for the admission of Utah to the Union. The Republicans must pass and the President sign the bill which it is thought will do that.

MR. PETTIBONE, a clerk in the State Department, last week tendered his resignation to Secretary Fish, and it will be regretted by the accompanying letter of commendation from the Secretary.

CONGRESS gives up its dead. One would think he ought to rest since 1873.

BRIGHAM YOUNG pledges Mormondom to the Republican party in return for the admission of Utah to the Union. The Republicans must pass and the President sign the bill which it is thought will do that.

THE next Presidential contest in New Hampshire. Elections for Governor and Legislature on the second Tuesday in March. Nominations by small minorities. Election March 1st. Nominations by Democratic Convention. Convention for election the 19th. Convention all three. The second is of Congress. Governor Walker is a candidate for Congress.

THE Democratic State Convention will meet at Harrisburg on Thursday, May 30th, 1872, at 10 o'clock, A. M., to nominate candidates for Governor, Judge of the Supreme Court, and Canal Commissioner, and to elect Delegates to Auditor General and delegate at Large to the Constitutional Convention, and also to form an Electoral ticket and select sentiment and report a preference for a candidate to present to the State in the Democratic National Convention.

PAYOLING WIDOWS. The Illinois House of the Illinois Legislature may be suspected of a tendrilness towards widows. A bill passed that body last week providing that widow claimants having received children all lives from one half of their deceased husbands, shall receive the whole. Under the pension laws in Illinois and in most of the other States the widow carves full and undivided Pension estate at the deceased husband's death. But there has been a tendency in recent legislation towards the half.

LEGISLATIVE. On Friday last in the House Mr. Hoster presented a bill to authorize local option, and one to prevent cattle from running at large in Adams county.

A plan of compromise for Mr. Cameron's case was submitted to Mr. Stockdale in the Senate each party to divide the members of the Committee and the seventh to be chosen by the House must pass and the Governor sign the bill which it is thought will do duty.

Mr. PETTIBONE was called upon in the State Senate last week to give information to investigate the matter, and will hereafter be discussing.

Senator Cameron's resignation was read in the Senate. This was followed by a long and eloquent speech in which he said he was not a candidate for the Senate, and that he was not a candidate for the Senate, and that he was not a candidate for the Senate, and that

THE revolutionists in Mexico are gaining ground, and Juarez is becoming alarmed

ON Tuesday the citizens of Baltimore voted $475,000 additional to the Western Maryland Railroad. The vote was twenty-eight—1067 for, to 1,113 against

THE Chairman of the Radical State Central Committee in Indiana has been removed. He is charged with selling from the party. Had he stolen from the people the matter would have been different

THE election in Chester, Delaware and Montgomery counties for vacancies in the State Senate to Fox Henry Lyons deceased will be held on the 16th of March, the day of the Spring Elections

CONGRESS is doing little more than marking time for the next presidential election. They have thoroughly passed a resolution to adjourn only so as to give the Radical members a chance to pull the ears to get at the Philadelphia Convention

CHIEF JUSTICE SMITH, Esq. was elected on Tuesday week to fill the vacancy in the House of Representatives from the Philadelphia district occasioned by the death of J. W. Dickerson. Mr. Smith was the Democratic nominee and is a man of integrity and ability

THE Philadelphia *Press* extreme Radical says

The movement in the Legislature to vote against the renomination of Grant gains solidity and strength. The isolated organizations of his enemies are gradually combining into an army. Within six weeks the Republican party will have a majority of the delegates in favor of a different candidate

S. P. Towne, a clerk in the Boston post office with a salary of $900 a year, has turned up a *bar* on the gold week of the range of a *breadth* to the amount of $40,000. Sixty unopened letters were found on him. When taken he was drunk. *Tableau*

CANVASSERS. It seems that the report in favor of Mr. Myers in the Cessna Meyers contested election case was signed by all the members of the Committee on Elections

CASH! generally. It is said. One would think he ought to offer such a title

BEAUTIFUL VOICE pledges the three contested seats of Utah for the Republican party is a bad omen for the idea that Liberty and to Democrats. But the Republicans will do well to remember that Liberty is a Star and will go from Washington to the United States and shine still brighter. Let Liberty without wrath stand on *adoptation* no matter to do so

THE mark in the New York General Order book is accounted for by Fort Wayne special telegraphs that Fort the suggestion said in the whole Cabinet concerned Mrs Grant. No matter to answer to the conundrum who is Fort's partner who is die to put his hand on Fortune's shoulder is a question

THE NEXT ELECTION. The first State election that occurs in 1872 is in New Hampshire. Statutes for the election and Legislature on the second Tuesday in March. Such an election is public in fact even than seems to small magnitude but in March 1871 it held a Democratic Senate and Governor. It carried the election choosing the Governor and all the members of Congress. Governor Weston was then the Democratic candidate

THE Democratic State Convention will meet at Reading, on Thursday May 9th, 1872, at 10 o'clock A. M. to nominate candidates for Governor, Judge of the Supreme Court and Canal Commissioner, to elect Delegates to Congress and Delegates at Large to the Constitutional Convention and also to form an electoral ticket and select Presidential and Congressional Delegates to represent the State in the Democratic National Convention

PAYING WIDOWS. Iowa House of the Illinois Legislature may be suspected of tenderness towards widows. A bill passed that body last week, providing that where a man dies leaving no children, all his personal and one half of his real property shall go to the widow. Under the present law in Illinois and in most of the other States the widow receives but one third of the real estate of the deceased. But there has been a strong agitation of the subject in the Legislature of that State

LEGISLATIVE. On Friday last in the House Mr. Hooper presented three petitions for local option and one to prevent cattle from running at large in Adams county

A plan of compromise in the Mt. Gretna Gravel case was submitted by Mr. Buckalew in the Senate each party to select three members of the commission and the seventh to be drawn by lot. In the House resolutions and the Governor signed the bill which is thought will be done

Mr. PETTIBONE introduced a bill in the State Senate last week for the purpose of investigating the Insurance Department. The bill provides that the Governor shall appoint a commissioner to investigate the affairs of the Department, and the Governor is authorized to employ an examiner to assist the commissioner

Mr. Sherman Carpenter introduced the bill of the Grand Students Bank to their to stop the mail with discounting it is an attack upon the Administration but Summer would not withdraw it and the discussion has been continued from day to day since

One of the efforts of the Summer friends is thus stated by the New York *Herald*

Our Commissioner Downing is without distinction of party or interest of the revolution that General Grant's administration, while decidedly protecting scrupulously with the Russian czar in Poland was at the same time selling arms and munitions of war to France in the Franco-Prussian war. The German press of the south is the King of the German states and indignantly denounce the sale of arms and ammunition to France as a good insult and injury

Mr. Schurz made a two hours speech to a crowded Senate on Thursday. He proved that Grant's admirers claimed had sold the Republican party in selling arms to France and warned Old Senators opposing the investigation that they could not stand before the rising Sun

In the matter that Emma Stebbins left by his executors was applied to General Butler but he should be regarded as one of the in Confederate of Immigrant. Butler was in jail and prisoner and Butler is in respect a real Porter friend confidential secretary was rather poor in 1862 and he is now estimated to be worth a million. Though his day it is spent the whole of it has been busy seeking to appear the decorated his position as a gentleman. Zoa Morgan was selected by public opinion to receive the office of Clerk and Grant gave him a warm and elegant certificate of character. Cobb the Treasurer is in the jail. The Senate was the only platform in the end. Hick Tinsley sold and Mrs Grant received $

$600 is the White House share of the speculation. Great was at one time a crony of the Inventor Isaac Cooper, his respect lady on the Sound to a dress and setting up and cut a new with him all the Boom in the Grant Street Cannon Ball, notorious as the most corrupt politician of Tammany in the city of Gotham most intimate friend Mr. Morton Dis. has spite cannon in the Senate is not conducted to be parade in arms. The equipted member Sutlin class favorite Brevet nurse. With such a tool and at instigation to compel his enemies. We do not write to Democrats but his enemies within the ranks of his own party. Nearly all the immoral and trusted leader on the Republican party seem and continue to be more estranged. The Sumner Horace Greeley Chase Lewis Adams Chief Justice Chase Mr. Trumbull Judge Davis, Carl Schurz in Senate Carl Gratz Brown and many of the oldest Republican minds in the United States in the New York *Tribune* the Cincinnati *Gazette* of the Chicago *Tribune* and the Springfield *Republican* Pres. Lincoln was the associate with the Lincoln in nationality and that it is his trust respected. Lincoln is the Lincoln and the Sumner man. Failing to unite

HON. GEORGE W. BRYANS of Indiana, who served several terms in the House of Representatives with credit, being a remarkable of the committee on public lands where his exposition of extravagant subsidies held to the opponent of a special committee in Pacific railroad and was chairman of the ways and means committee. He from the Republican and was defeated for candidate for Congressman at large from that State but in answer to inquiry replies that the Republican organization is now conducted in that State and elsewhere has survived the rightful end of that party and that it has to become a public organ and must be in the control of principles upon which conservative men of both parties can agree. Mr. Bryans is also most eloquent in talking to the labor interests when convention at which the Democrats of Indiana nominated Mr. Bryans for Congressman at large

THE Democratic Congressional Committee has called upon the committees of the Democratic Congressional Committee to meet at Washington on the 4th March to fix the place and time for holding the Democratic National Convention. The Committee will also fix the number of delegates to be allowed to each State and Territory in the

THE HOUSEKEEPER.

WHAT SHALL WE EAT?—This is an important question in these times of high prices. Dr. Hall, in a late number of his *Journal of Health*—a good authority, by the way—says the cheapest articles of food at present prices are bread (especially corn meal), butter, molasses, beans and rice. He shows that 25 cents' worth of flour, at 6 cents per pound, contains as much nourishment as $2.25 worth of roast beef at 25 cents per pound; and that a pint of white beans, costing seven cents, has the same amount of nutriment as 3½ pounds of beef at 25 cents per pound, or, in other words, that the roast beef diet is twelve times as expensive as beans. Furthermore, a pound of Indian meal will go as far as a pound of flour, costing nearly twice as much.

Here are some of the common articles of food, showing the amount of nutriment contained, and the time required for digestion:

	Time of Digestion.	Amount of Nutriment.
Apples, raw	1h. 50m.	16 per cent.
Beans, boiled	2h. 30m.	37 per cent.
Beef, roasted	2h. 30m.	26 per cent.
Bread, baked	2h. 30m.	60 per cent.
Butter	3h. 30m.	96 per cent.
Cabbage, boiled	4h. 30m.	7 per cent.
Cucumbers, raw		2 per cent.
Fish, boiled	2h. 00m.	20 per cent.
Milk, fresh	2h. 15m.	7 per cent.
Mutton, roasted	3h. 15m.	30 per cent.
Pork, roasted	5h. 15m.	21 per cent.
Poultry, roasted	2h. 45m.	27 per cent.
Potatoes, boiled	2h. 30m.	17 per cent.
Rice, boiled	1h. 00m.	38 per cent.
Sugar	3h. 30m.	96 per cent.
Turnips, boiled	3h. 30m.	1 per cent.
Veal, roasted	4h. 00m.	25 per cent.
Venison, boiled	1h. 30m.	22 per cent.

According to the above tables, cucumbers are of very little value, and apples, cabbages, turnips, and even potatoes, at present prices, are expensive eating. Some vegetables and fruits should, however, enter into the family consumption, even if purchased for sanitary reasons. Among those which contain the most saccharine matter, sweet potatoes, parsnips, beets, and carrots are the most nourishing. Roast pork, besides being an extraordinary dish, requires too lengthy a drain upon the forces of the stomach to be a healthy article of diet.—*N. Y. Tribune.*

FATAL ACCIDENT IN BERKS COUNTY.—From the Reading *Eagle*, of Friday, we learn that a sad and fatal accident occurred on Thursday about four miles from that city, by which Mr. Michael Sanssen met his death. About 4½ o'clock Mr. Sanssen, who was filling the fires in the stoves, at his residence, went out into the yard for coal, when he observed a chicken-hawk flying around, and he at once ran into the house to get his gun to shoot. Taking his gun he left the house and proceeded to where the hawk was. The report of the gun was heard, but Mr. Sanssen did not return, when one of his sons, Daniel, went out, about half an hour after, and discovered his father lying about fifty yards from the house dead. The deceased was about climbing over the fence, and putting the gun over first, he accidentally struck the hammer of it against a projecting board, which discharged the piece. The shot from the gun tore off the fore finger of his right hand, a portion of his right ear and the right side of his skull, no doubt causing instant death.

Mr. Sanssen was in the 52d year of his age, a native of Germany and a miller by trade. He was well known in Cumru township, where he has lived for the past 10 years.

IMPORTANT CASE DECIDED.—In 1866 and 1867, the Town Council of this borough laid some $3,000 worth of pavement for those who did not lay within the time prescribed by a Borough Ordinance, with 20 per cent. added as costs. This gave rise to a dispute in the course of the citizens whether the Council had a right to do so or not. Two of the cases were tried in the Court of Common Pleas about a year ago, which were decided in favor of the Borough. One of them was taken to the Supreme Court as a test case, viz: The Borough of Sunbury vs. M. Wilvert. The Supreme Court, in affirming the judgment of the Court below, over-ruled every point on which the case was taken up. One of the points on which the case was taken up was that the bill of particulars accompanying the lien was not recorded. The Court decided that the bill of particulars need not be recorded; that filing the same is sufficient.—*Sunbury American.*

Administrator's Notice.

JAMES ROBINSON'S ESTATE.—Letters of administration on the estate of James Robinson, late of Oxford township, Adams county, deceased, having been granted to the undersigned, residing in the same township, he hereby gives notice to all persons indebted to said estate to make immediate payment, and those having claims against the same to present them properly authenticated for settlement.

Jan. 26, 1872. 6t JAMES M. ROBINSON, Administrator.

RAILROAD PROJECT.—A meeting was held on the 8th inst. in Baltimore to take into consideration a project for building a narrow-gauge railroad from Peach Bottom through Harford and Baltimore counties, via Towsontown, to Baltimore city. The distance from Peach Bottom to Baltimore by the proposed route would be only thirty-two miles. The fact that almost enough stock has been subscribed to insure the construction of a narrow-gauge railway from Lancaster to Quarryville, only a short distance from Peach Bottom, lends additional interest to the project mooted in Baltimore.
